

# EMPOWERED LEADERS EMPOWER CHANGE

*Honed by years of extensive experience and research, Anderson Leadership Consultings' systematic methodology empowers corporate leaders to empower organisations and drive lasting and effective cultural change*

## LEADERSHIP COACH

Guiding leaders in their journey to becoming the best version of themselves. Our process identifies obstacles to success, defines the approach to overcome them, and creates a path towards greater effectiveness

## TEAM COACH

Coaching teams toward cohesiveness. We build comfort in the art of difficult conversations and engineer an environment of trust and accountability

## CHANGE EXPERT

Leading organisations through the behavioural change required to achieve a culture of success

## STRUCTURED METHODOLOGY

- We begin with the leadership
- We work to identify the behaviours that need changing
- We set milestones
- We facilitate the practising of required behaviours
- We resolve blockages by creating the ability to have difficult conversations
- We practise building trust by creating a platform for honest participation in problem-solving sessions
- We implement an environment for genuine empowerment and build stronger teams

*"I develop a culture of understanding that everyone matters and that by conquering fear, we can create a trusting and safe environment where people and businesses can thrive."*

**-Erica Anderson-**
